

XTRALIFE[®]

TECHNOLOGY[®]

TO THE RESCUE!

by Anagram

Technological Breakthrough!

XtraLife[®] Technology, exclusively by Anagram, is a new manufacturing process that enables foil balloons to retain helium **3 to 5 times longer** than standard foil balloons!

Save Time & Money

Minimize labor costs and helium consumption by eliminating the need to frequently re-inflate foil balloons.

Sell More

Now it's easier than ever to offer an attractive assortment of fully-inflated and fresh balloons that create excitement and generate additional impulse sales.

XtraLife[®] Technology balloons by Anagram are available in most shapes and sizes. Look for the XL mark on the tail of the balloon, in the product description and online at anagramintl.com.
