

Holographic

BALLOONS

The Brightest Light Reflecting Film in the Industry!

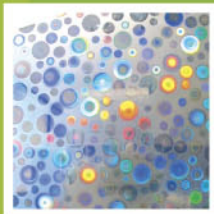

Another Anagram innovation is the specialty film we use to create amazing prismatic and holographic effects on our balloons.

Only Anagram offers your customers the highest quality premium holographic balloons to add a little dazzle to every occasion.

- Holographic film is silver film that produces a lustrous effect when seen at different angles.
- Plain or patterned, this film provides a brilliantly colored spectrum of light as though looking through hundreds of prisms.
- Twinkling sparkles or repetitive patterns and shapes provide an extra dazzling, color-enhancing effect.
